Skills

Languages: Dart, JavaScript, C++.

Technologies: Flutter, Flutter Web, Android, iOS, Firebase, MongoDB, Mongoose, Express.js, Node.js, Git, Rest Api.

Methodologies: Agile, Scrum, OOPS, Functional Programming, CI/CD.

Experience

Software Engineer, BossWallah – Bangalore, Karnataka, DEC 2025 – PRESENT

- Single-handedly **migrated** the entire Flutter application from **Flutter 3.24 to 3.35.0**, resolving breaking changes, dependency conflicts, and deprecated APIs.
- Improved overall **codebase stability and maintainability** during migration by refactoring outdated components and enforcing updated Flutter best practices.
- Worked on **Adjust SDK integration** to enable accurate attribution tracking, campaign performance analysis, and user acquisition insights across platforms.
- Implemented the **Finance module**, including expense tracking, financial dashboard, and core finance workflows to give users clear visibility and control over their spending.
- Introduced **timezone aware functionality** across the app to ensure accurate date, time, and scheduling behavior for users in different regions.

Software Engineer 2, FYERS – Bangalore, Karnataka, MAR 2024 – AUG 2025

- Led the development of FYERS complex **Portfolio module**, delivering it successfully within the defined timeline while collaborating with product, QA, and design teams.
- Improved **app startup time by 700 ms**, significantly enhancing overall performance and user experience.
- Implemented **Shorebird CI/CD workflows** for release and patch channels, enabling seamless **over-the-air (OTA) updates** for mobile users.
- **Wrote custom GitHub Actions workflows**, replacing paid tools like Code magic and reducing company expenses.
- Implemented new features such as adding date time to the trend chart and enhancing the Quick View for better user on boarding.
- Developed push notification functionality using Firebase, improving user engagement.
- Integrated Meta and Clever Tap SDKs for user journey tracking and real-time behavioral analytics.

Software Engineer, PARTYHUNT – North Goa, FEB 2023 – FEB 2024

- Led the development of the **Create Party** and **Create Brand** modules, two of the most critical features of the app, and delivered them end-to-end.
- Established a scalable architecture and coding standards, ensuring consistency across the team and making onboarding easier for new developers.
- Successfully implemented Firebase Analytics for user behavior tracking, Crashlytics for real-time crash reporting, and Firebase Cloud Messaging for managing push notifications in the app, enhancing user experience and app stability.
- Actively participated in code reviews and provided constructive feedback, contributing to a 30% reduction in code defects and improved overall code quality within the development team.

Education

Shri Mata Vaishno Devi University, JK, India, B.Tech in Computer Science

Aug 2019 – Aug 2023

- CGPA: 7.25/10
- **Coursework:** Computer Architecture, Artificial Intelligence, Computer Networks, Data Structures and Algorithms

Projects

Todo App

- Added Features like Add task, Delete Task.
- Done/Undone, Favorite/Unfavorite, Restore Task, Clear Bin Folder.
- Change Theme (Dark and Light).
- Used Bloc as State Management.
- Used different Flutter Widgets such as Drawer, Popup Menu, Expansion Panel and Bottom Navigation Bar.

Flutter E-Commerce App

- Developed the user interface of the E-Commerce app using Flutter.
- Used the Bloc library to handle the state management and the logic of all our app features.
- Managed data and the backend of the app using Firebase.

Additional Experience and Awards

- Top contributor at college. Done various events and activities in college to guide students.
- Awarded Man of the Match in SMVDU House Cricket League.
- Top 10 position in Code Club Coding Contest at SMVDU.

Hobbies and Languages

- Playing Cricket, Listening Music.
- Volunteering and wandering different parts of the World.
- Reading books related to marketing, Strategy, Growth, Startups, Entrepreneurship.
- English, Hindi.
